

# Viola Duets

*Highly floriferous, lasting Violas in colours that sing*

Viola 'Orange Duet'

Viola 'Dusky Duet'

This autumn Floriana introduces two new **Duets** in colours that really sing; '**Orange Duet**' and '**Dusky Duet**'.

New Natural Beauty **Viola Duets** can be relied upon to deliver delightful flowering displays right across the cooler months. These exciting F1 hybrids really do look better out in the garden for longer due to their neat foliage, compact habit and petite flower size.

**Viola Duets** are less likely to stretch in extreme heat and cold than other violas, and have a highly floriferous nature delivering months of cut-and-come-again colour.

Brassy **Viola 'Orange Duet'** with its vibrant face and shocking purple cap adds a certain pizzazz to the garden. Try planting it in patio pots and window boxes as a cheering addition to the winter landscape.

**Viola 'Dusky Duet'** in rich tones of velvety purple and black strikes a dramatic note wherever it appears. 'Dusky Duet' is ideal for subtle borders, bedding displays and mixed plantings.

Height:	15-20cm approx
Position:	Full sun/semi-shade Fertile, well-drained soil
Plant:	20cm apart
Flowering time:	6 to 8 weeks
Uses:	Borders, garden beds, pots, hanging baskets, ground cover
