## Pansy 'Starlight'

like the sweep of the Milky Way across a clear night's sky

Pansy 'Starlight' features intensely purple petals with a dynamic flash of burnished yellowy orange at centre relieved by dramatic dark facial markings.

Planted en masse, Pansy 'Starlight' looks like the sweep of the Milky Way across the ink wash of a clear night's sky and shines in pots, urns, hanging baskets and window boxes.

[more/](#)

This newly developed F1 hybrid pansy has large, absolutely stunningly beautiful flowers up to 8cm across held aloft on sturdy stems.

Pansy 'Starlight' retains its attractive compact habit from autumn through spring and, like all Floriana Natural Beauty quality pansy hybrids 'Starlight' can be relied up for a better and longer lasting display with more flowers in better colours, prettier markings and a more attractive, compact habit.
