

NEW RELEASE AUTUMN 2013

*f*LORIANA®

Perfect for Pots

PANSY Plentifall™ Trailing Violet Wing

Viola x wittrockiana

Robust trailing pansy with full flower coverage

Spreads up to 60cm across

The Pansy Plentifall™ Trailing series is an exciting development in plant breeding. This autumn Floriana is proud to release new **Violet Wing** to its existing collection of beautiful varieties.

Plentifall™ Trailing Pansies have a similar culture to multiflora pansies with an exceptional branching habit and **spread up to 60cm across**.

Perfect for Pots

PANSY Plentifall™ Trailing Violet Wing cont.

The mid-sized flowers of Plentifall™ pansies offer gardeners even more value by recovering quickly after rain and watering ensuring full and generous flower coverage for months at time.

These F1 hybrid pansies have an amazing cascading habit making them simply perfect for display hanging baskets, window boxes, urns and containers.

Vigorous, easy-to-grow Plentifall™ pansies also make an ideal ground cover and may be planted to soften the edges of paved areas and retaining walls.

FAST FACTS

Position: Full sun.

Height: 15-20cm approx.

Width: 60cm approx.

Flowering: 6-8 weeks after planting.

Tip: Cooler weather produces larger blooms, deeper colours and more prominent petal markings. Deadheading encourages ongoing flowering.
